

Good balance cost / performance

Architectural applications

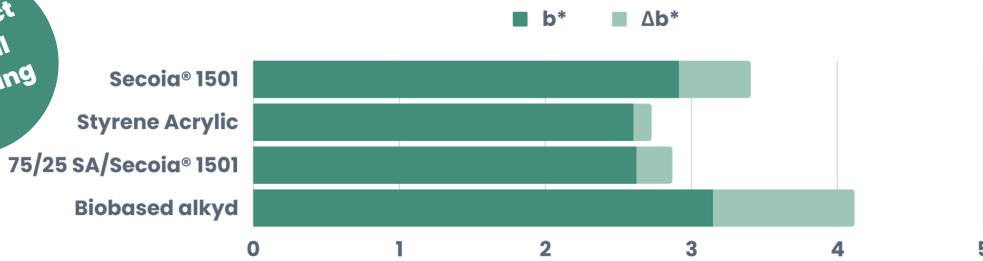

Versatile binder :

Increase the bio-based rate of your coatings :

- by advantageously **replacing** traditional alkyd binders
- by **substituting** part of petro-based binders

No impact on final yellowing

Mate wall paint

After 28 days
128 µm wet film

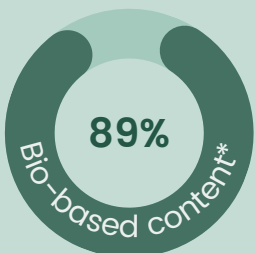

Whatever your technical goals & customers profile:

We have an orientation formulation!

From standard (5% dry binder) up to premium (16% dry binder)!
