

SECOIA® 1400

Water-based bio-sourced binder

*Based on C content measured according to EN 16640

Key benefits in paints:

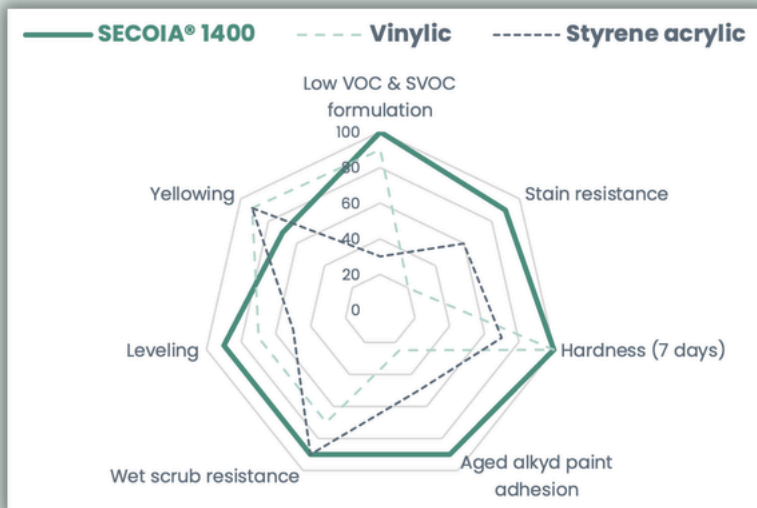

- ✓ **Low VOC / SVOC** (< 1 g/L) / Low solvent emissions
- ✓ High **applicability, high leveling**
- ✓ Reaches **class 1 wet scrub** resistance in matt & satin paints
- ✓ High **stain resistance**
- ✓ Less / No coalescent needed
- ✓ Easy blend with all types of water-based binders

High performance

Ultra-low carbon footprint binder:

113% Carbon Footprint saved per kg**

compared to a standard **petro-sourced styrene-acrylic**

**Cradle to gate LCA – IPCC 2021 GWP 100 method including biogenic carbon CO2 storage effect

50% solid content

SECOIA® 1400 – alone or blended- reduces coatings' VOC & carbon footprint without compromising performance
